

MK Aurelia - Lifting Bath Tub – Bathing in Perfection

- + bathing positions on both sides possible
- + continuous variable height adjustment
- + ergonomical form
- + length 1,98 metre
- + easy access with hoist due to underneath space
- + comfortable for user and carer

Fantastic built-in accessories to enhance the wellness feeling:

Illumination – bathing water can be immersed in 5 different colours by LED lamps

Hydro Sound – Speakers and a MP3-player enable the enjoyment of underwater music

Bathing possible in both ways

No matter in which direction you would like to rest your eyes – the symmetrically formed slopes of the tub enable it to lay in there in both ways. The ergonomic form of the tub gives you an excellent comfortable bath.

Continuous variable lifting system

The user can get in and out of the tub independently because of the given height adjustment (from 600 mm – 980 mm), also it provides an ergonomic working environment for the carer. Due to the exceptional room underneath devices like patient lifters have access in many ways.

Optional Sound System

Enhancement of the bathing experience

Highest Quality Standards

Neat and perfect manufacturing and the use of fine materials guarantee long-lasting pleasure

Great Colour Variety

Due to a flexible production the GRP-polyester is available in numerous RAL colour shades.

Choose your illumination

The integrated LED illumination immerses the bathing water in five different colours.

Concealed mixer

Optionally our lift tub comes with a concealed mixer and thermostat, plus scalding protection
